

Spring 2018 ePortfolio Development Community

Getting Started – Jan. 17: Empowering Students with ePortfolios

1. Upcoming Events (10-10:10am)

- [WPCampus Virtual Conference](#) – Tues Jan 30
- AAEEBL Annual Local Planning Committee Meeting – Thurs Feb 8 (1-3pm; location tba)
- [AAEEBL Collaborative International Seminar](#) – Dublin City University – May 23-25
- [AAEEBL Annual Conference](#) – Capilano University – July 23-26

2. Discussion of Readings – Prompts (10:10-11:10pm):

- For faculty **not** already using portfolios, how (if at all) has your thinking about ePortfolio shifted or evolved in the process of completing the readings?
- For faculty already using portfolios in their courses, how (if at all) have the readings suggested or drawn attention to refinements / revisions that you want to take up or explore in the coming weeks?
- Reflecting on the “Journey of the eWolf” article, what should we be keeping in mind collectively as we work on this initiative? And what – if anything – would you like me to be investigating/digging up in the coming months? (I will keep asking this question as how we answer it will likely change the deeper we get into the course redesign process.)

3. WordPress (11:10—11:20am)

- Given that the Development Community focus is on curriculum and program design, when would folks like to attend a WordPress workshop (half- or full-day)? Or are you happy to work on your own with the support of the Peer Mentors?
- Reading Break? E.g. Wed Feb. 14?
- During May PD Week?
- Questions / requests going forward?
