

Course Availability Interview**File Transcription**

File: interviewassignment.wav

Duration: 08:06:05

Date: October 16, 2018

Interviewer: Devon L. Simpson

Respondent: Anonymous

Interviewer: Do you have experience being waitlisted?

Respondent: No, I have not had to be waitlisted for my courses yet. My registration date was early on, so I guess that helps.

Interviewer: Do you have any thoughts about a lack of higher-level courses at cap?

Respondent: I have not looked into it too much, but I might. I think I may have to transfer to complete my degree somewhere else. A lot of my friends are doing that after second year.”

Interviewer: Have you thought about eventually transferring from Capilano University?”

Respondent: Yeah, now I am. I might go to SFU or UBC if I can get in. Transfer rates from Cap seem to be really good.”

Interviewer: What courses are you taking?”

Respondent: I am in first year, so I am knocking off cap core classes to see what interests me the most. I still don't know what I want my degree to be, or what I want to do for that matter”

Interviewer: What are your thoughts on Cap Core?”

Respondent: A like it I guess, a lot of the courses I must take anyway as prereqs and from what I have read it looks like it will make well rounded students. Plus, it allows me to explore a bit while being productive.”

Interviewer: Do you have problems sometimes registering for courses and them overlapping?

Respondent: No. Probably because I am first year though. I guess that might be different when I am in second or third year and the class sizes get smaller?

Course Availability Transcription

Interviewer: Are you happy with your class sizes?

Respondent: Yes, that is the reason I chose to go to Cap, for a better transition from high school and I felt like I would get a better education instead of being just a number in a lecture hall.

Interviewer: Those are all my questions, thank you for answering them.

Respondent: Yeah, no worries!

Interviewer: Have a great rest of your day.
