ABOUT ME

They say not to judge a book by its cover, but I couldn't help myself to be drawn into Small Victory Cafe and Savio Volpe by the beautifully crafted signage and branding. Driven by collaborative projects, I love interacting with clients and other creatives to produce a satisfying design solution. If I could intern at Glasfurd & Walker this summer, I will use my eye for detail and enthusiastic attitude to put in all my heart to contribute my design skills to the company.
